

City and Borough Sitka, Alaska

Class Specification

Class Title	Journeyman Lineman
Class Code Number	4050
FLSA Designation	Non-Exempt
Pay Grade and Range	IBEW
Effective Date	September 2010

General Statement of Duties

Installs and maintains overhead and underground electric and substations lines; performs related work as required.

Distinguishing Features of the Class

The principal function of an employee in this class is to install and maintain all classes of overhead and underground distribution, transmission lines and substation. The work is performed under the direct supervision of the Line Crew Foreman but some leeway is granted for the exercise of independent judgment and initiative. An employee in this class performs the duties of other employees in the Electric Department as required or as assigned by supervisory personnel. The nature of the work performed requires that an employee in this class establish and maintain effective working relationships with other Department and City employees, contractors and the public. The principal duties of this class are performed in an outdoor environment which may involve adverse weather conditions and related hazards in which the employee is subject to potential personal danger. In the absence of the Line Crew Foreman, an employee in this class may temporarily assume full responsibility for duties of the Line Crew Foreman.
