

Parks and Recreation Committee Agenda

Tuesday, February 10, 2026, 12:00 PM
Harrigan Centennial Hall, 330 Harbor Drive

Members: Chair Candace Rutledge, Vice Chair Steve Black,
Brandon Marx, Katherine Prussian, Manoj Battar, Ben Hughey
Assembly Liaison: Kevin Mosher

- I. CALL TO ORDER**
- II. ROLL CALL**
- III. AGENDA CHANGES**
- IV. PERSONS TO BE HEARD** *(For items OFF the agenda – not to exceed 3 minutes)*
- V. APPROVAL OF MINUTES**
 - A. January 13, 2026
- VI. REPORTS**

Chair:
Members:
City Staff:
Assembly Liaison:
Other(s):
- VII. UNFINISHED BUSINESS**
 - B. Discussion / Direction on redesign of the Seawalk interpretive signs
- VIII. NEW BUSINESS**
 - C. Approval of Commercial Recreation Land Use Permits – requests not in 2026 Land Use Plan
 - a. Tribal Tours – Sea Walk and CBS sidewalks
 - b. Innersea Discoveries – Takatz Bay
 - c. Lindblad Expeditions – Takatz Bay
 - d. Elysium Expeditions – Takatz Bay
 - D. Discussion of Parks and Recreation Master Plan Process
- IX. PERSONS TO BE HEARD** *(For items ON or OFF the agenda – not to exceed 3 minutes)*
- X. ADJOURNMENT**

Parks and Recreation Committee Agenda

Tuesday, January 13, 2026, 12:00 PM
Harrigan Centennial Hall, 330 Harbor Drive

Members: Chair – Ben Hughey, Vice-Chair Candace Rutledge, James Poulson
Brandon Marx, Katherine Prussian, Steve Black, Manoj Battar
Assembly Liaison: Kevin Mosher

I. CALL TO ORDER

Chair Hughey called the meeting to order at approximately 12:00 p.m.

II. ROLL CALL

Present: Ben Hughey, Katherine Prussian, Brandon Marx, Steve Black, Candace Rutledge (via zoom),
and Manoj Battar

Absent:

Assembly Liaison:

Staff Present: Deputy Municipal Clerk Holley Bayne, Parks and Recreation Coordinator Kevin Knox, and
Grounds Maintenance Supervisor Kent Smith

Others: None.

III. AGENDA CHANGES

None.

IV. APPROVAL OF MINUTES

A. November 10, 2025

Marx moved to approve the November 10, 2025, meeting minutes. Motion passed 6-0.

V. REPORTS

Chair: None.

Members: None.

City Staff: Kent Smith summarized current projects and plans for spring projects. Kevin Knox reported on commercial land use applications received, current and upcoming programming, and MOAs to go to the Assembly at the next meeting.

Assembly Liaison: None.

Other(s): Sitka Trail Works - Hughey provided an update on Sitka Trail Works projects and plans to hire crew for trail work.

VI. PERSONS TO BE HEARD *(For items OFF the agenda - not to exceed 3 minutes)*

None.

VII. UNFINISHED BUSINESS

None.

VIII. NEW BUSINESS

B. Chair and Vice Chair Nominations

Marx moved to nominate Rutledge as Chair. Motion passed 6-0.

Marx moved to nominate Black as Vice Chair. Motion passed 6-0.

C. Discussion on Parks and Recreation FY27 Resource Proposals

Knox provided an overview of four FY27 resource proposals submitted by Parks and Recreation which included updates to the ADA bathroom at Blatchley Pool, a ceiling-mounted stationary mat mover, a single stall "family" bathroom at the Crescent Harbor Playground, and increasing the part-time Head Lifeguard to a full-time position. The members discussed the proposals and voiced support.

IX. PERSONS TO BE HEARD *(For items ON or OFF the agenda – not to exceed 3 minutes)*

None.

X. ADJOURNMENT

The next meeting would be February 10, at noon in Harrigan Centennial Hall. Hearing no objection, Chair Hughey called the meeting to adjournment at 12:52 PM.

Attest:

Holley Bayne, Deputy Municipal Clerk

SIT Seawalk Phase II WFLHD RASPS, SFHWY00312/AK SIT 2017(1)

Dear CBS Parks & Rec Committee/ CBS Historic Commission,

Attached are four (4) draft interpretative panels for the **Sitka Seawalk Phase II project for your review**. The panels will be about 36.5 inches x 24.5 inches and located along the new Seawalk as shown on the attached plan sheets (Attachment Plans- Panel Location; Sheet L7).

The project agreed to an interpretive panel about eelgrass beds and their important role as Essential Fish Habitat in response to concerns about project impacts to eelgrass beds. In addition to this panel that is a commitment in the environmental document and Essential Fish Habitat Assessment for unavoidable impacts, the project has also developed more panels for placement along the Seawalk. The panels took into consideration input from numerous people (including the Sitka Tribe of Alaska Natural Resources Committee and Cultural Resources Committee). Attached is a list of outreach that was conducted regarding the draft panels.

We are appreciative of everyone that generously shared their knowledge and time. Please let us know if you have any comments on the panels.

Lingít Aaní

We are in the heart of Lingít Aaní, the homeland of the Tlingit people. This includes all of what is now Southeast Alaska and part of what is now Yukon Territory of Canada.

Tlingit people came here long ago, from inland or from down the coast. People first came here as the ice receded after the last Ice Age, more than 10,000 years ago.

This place is **Sheet'ká**, or the place at the side of Shee (also known as Baranof Island).

*View of an Indian Village in Norfolk Sound.

Tlingit People and the Maritime Fur Trade

This picture at right shows the Tlingit settlement of Noow Tlein, or Big Fort, also known as Castle Hill, in 1793. Above, a view from approximately the same perspective, with the O'Connell Bridge in the foreground, in 2024.

The artist was on the English ship *Three Brothers*, here to participate in the Maritime Fur Trade, joining into the vast, pre-existing Indigenous trade network. They traded guns and other goods for sea otter furs from Indigenous leaders, then traded the pelts for luxury goods in China.

This trade began in the mid 1780s but ended by the 1810s due to overhunting. It was dominated by traders out of Boston, in the brand new United States of America. The trade brought great wealth to the Tlingit and other Northwest Coast societies, as well as to the Europeans and Americans.

Sea otter were rare in Southeast Alaska by the early 1800s, and were gone by the early 1900s. In 1965-1969, biologists brought some from the Aleutian Islands, and they are abundant here once again. Photo by Cora Dow.

Herring and Trade

The Indigenous trade network—which foreign traders joined in the late 1700s—included trade in dried herring eggs. This trade had started long before, and lasted into the 20th century.

Sitka has a longer and better herring spawn than in other places, one of the few places that Tlingit clans gather together every spring to share this abundance.

The Food Economy

Russians and Trade

Trade was the economic engine of the Indigenous Northwest Coast. American and European ship captains joined into the Indigenous Northwest Coast trade starting in the 1780s, buying sea otter furs and also art and food.

Russians had a different system. They came to Alaska via the Aleutian Islands, in far western Alaska, in the 1750s. Instead of buying furs or catching animals themselves, they forced Native people of the Aleutians and Kodiak Island—the Unangax and Sugpiaq people—to do the hunting.

In the 1790s, Russians started coming in to southeastern Alaska with hundreds of Native hunters, who paddled their baidarkas (kayaks) 900 miles from Kodiak to Sitka and back again.

In 1799 Russians negotiated with the Kiks.ádi clan leader for a hunting base north of Sitka, but Russian offenses led to its destruction by multiple Tlingit clans in 1802. Russians retreated.

In 1804 the Russian Navy frigate *Neva* bombarded the Tlingit Kiks.ádi clan at their new fort, Shis'g'i Noow, at the mouth of Kaasdaa Héen or Indian River. The Kiks.ádi evacuated that fort when they ran out of gunpowder. Russians and Tlingit conducted a peace in 1805. Russians stayed at Sitka, but Tlingit leaders retained control of Sitka Sound and the region. They sold Russians food, as well as furs and labor.

Sitka has always has been busy with people moving about on the water. The economy going back hundreds of years was based on trade, especially in food. Tlingit people took care of this place, and food was always here.

Tlingit people harvest herring eggs by placing hemlock branches in the water for the fish to spawn on, or by collecting sea plants with herring eggs on them. Herring eggs used to be air dried for preservation, but today most are frozen.

Photograph is of sea plants with herring eggs being dried in the Sitka Indian Village waterfront circa 1913. Photo by E. W. Merrill, SIT 26267, Sitka National Historical Park.

Sitka in 1827, with Noow Tlein/Castle Hill center left. Painting *Sitka, on the Northwest Coast of America*, Drawn from *Nature* by A. Postels, Alaska State Museum, Juneau 2012-14-1.

New Archangel and the Food Economy

The Russian objective in building at Sitka was to claim the coast, per the Doctrine of Discovery, against other European nations and the United States. Tlingit clans continued to control the region and traded with the Hudson's Bay Company, Americans, other Native societies, and with the Russian-American Company. They also sold the Russians tons of food for their settlement here, called New Archangel.

Tlingit control of the region changed dramatically when Russia transferred their claims in Alaska to the much more powerful United States in 1867.

Herring eggs are an example of the food economy, dried for use as well as for trade. Tlingit caretakers over the centuries seeded new areas by putting eggs in new places. They took less or none where the spawn was thin, and took more where it was too thick, and are still careful to not disturb the fish during the spawn.

Place and Change

A view of downtown Sitka, between 1922 and 1934, before the waterfront was filled in. Noow Tlein/Castle Hill is on the left, with the Department of Agriculture building that was there from 1900 to 1955. Japonski Island, with the radio towers, is in the background. The large number of gulls signals that it is probably during the herring spawn. Winter and Pond photo, collection Sitka Historical Society.

Sitka Joined the U.S. in 1867

The official Transfer of Alaska from Russia to the United States happened on Noow Tlein, or Castle Hill, in 1867. Tlingit leaders were not invited: the United States did not recognize their ownership. Alaska Natives finally got recognition of their rights to land and resources in the 1971 Alaska Native Claims Settlement Act.

One big change since then is the filling in of Sitka's shoreline. In the 1960s "The Crescent," a long sloping beach east of downtown, was dredged to create Crescent Harbor. Harrigan Centennial Hall, the Sitka Public Library, and the base of the bridge (where you are standing) are on fill from that project.

During WWII, the military leveled and connected Japonski and other islands in front of Sitka for a Naval Air Station and Army coast defenses. Much of Sitka's Village waterfront, northwest of downtown, is now commercial and industrial, and has also been filled in.

Aerial image copyright 2025 Jfactory. Overlaid with map drawn from the 1867 Transfer Map at the Alaska State Archives.

Left, a view from the mid-1880s looking east from atop the Russian administrator's house and offices (called "Baranof's Castle" by Americans) on Noow Tlein or Castle Hill. Photograph Presbyterian Historical Society.

Right, the view looking northwest, from a viewpoint near Noow Tlein/Castle Hill, circa 1877. This waterfront northwest of downtown is called the Sitka Indian Village, a consolidated settlement built in the late 1820s, adjacent to the Russian outpost. Photograph Presbyterian Historical Society.

Eelgrass is Essential Fish Habitat

You Are Here

O'Connell Bridge and Noow Tlein/Castle Hill in 2022, with herring spawn (the bright milky turquoise color) over the eelgrass beds. Photograph Alaska Department of Fish and Game.

Eelgrass and Herring, Yaaw

Yaaw is the Tlingit word for Herring, which return to Sitka Sound every spring to spawn. The females release their eggs, and the males release milt that fertilizes the eggs, and turns the water milky and opaque. The eggs stick to sea vegetation and other surfaces and eventually hatch into baby herring. **Eelgrass is one of the best substrates for the herring eggs to stick to in order to hatch. Eelgrass is Essential Fish Habitat, where fish spawn, breed, feed, or grow to maturity.**

Herring and their eggs are good food for people, and they are also important food for other fish, sea mammals, and birds. Every spring, Sitka Sound comes alive as whales, eagles, gulls, sea lions and seals congregate to feast on the abundance made possible by intact habitat.

Eelgrass

Eelgrass, Essential Fish Habitat, is the base of a highly productive food web. Tiny fish and other creatures depend on eelgrass to live in and hide, feed and reproduce. It produces oxygen, cleans the water, and reduces erosion. At very low tide you can see eelgrass here. Red square is approximately where you are standing.

Photograph by Solstice Alaska Consulting.

You Are Here

Herring Reduction Plants Devastated Populations

The herring reduction industry, which "reduced" herring into oil and fertilizer, greatly expanded in the late 1910s. Overfishing led to collapse of herring populations, harming the people and animals that depended on them. The last reduction plant closed in 1966.

Herring rake in the Sheldon Jackson Museum. Herring used to come so thick that people could catch them by running a herring rake through the school of fish, then dropping the impaled fish into the boat. Photograph by James Poulson.

Commercial Fishing for Herring Eggs

The commercial **sac roe seine** fishery catches herring with a net for the ripe egg sacs inside the mature female fish, called sac roe. At Sitka it began in 1969, to supply the Japanese market after the herring population at Hokkaido, Japan, collapsed. Herring eggs are also commercially harvested, without killing the fish, using floating pens with kelp for the herring to spawn on. In 2025 Sitka's sac roe fishery and a herring spawn on kelp fishery off Prince of Wales Island were the only commercial herring egg harvests in southeast Alaska, because of low herring populations at other places where they used to be abundant. The difficulty of managing herring, especially as the climate changes, is leading to a more cautious approach to the sac roe fishery here.

Herring Eggs

Herring eggs have always been central to Tlingit life. People harvest them by setting out hemlock branches or by collecting sea plants that have eggs on them.

A 9-inch (23 cm) Pacific herring is considered large, but they can grow up to 18 inches (46 cm) in length. Background photograph ©Ian McAllister. All Rights Reserved by Ian McAllister and Pacific Wild Alliance.

OVERLOOK ENLARGEMENTS

SIT Seawalk Phase II WFLHD RASPS, SFHWY00312/AK SIT 2017(1)

Outreach for comments and comments received on SeaWalk signs:

Kicked off with meeting end of 2023, with Sitka Tribe of Alaska's Natural Resources Committee, who nominated a small working committee of staff members Jeff Feldpausch and Chuck Miller (who passed away in summer 2024) and Tribal members Louise Brady and Harvey Kitka. This meeting also kick started a process for a small stipend for volunteers, which was worked out by February 2024. (The Tribe's Cultural Resources Committee was not yet reconvened after the pandemic)

Initial topics and contents developed with meeting with Louise Brady and Harvey Kitka, March 2024.

Drafts shared with the following (* for individuals we got comments from):

Eric Dow *

Cora Dow *

Yusur Jasim *

Jerrick Hope Lang Lduteen *

These comments were mainly on arranging the content, and favorable on the clear and informative nature of the content. Cora Dow and Yusur Jasim are both in a graduate history teaching program. Jerrick Hope Lang is active in Tlingit culture and in promoting through preservation and rebuilding Clan Houses.

Rose Demmert *

Rachel Moreno *

Javier Camacho *

These three I reached out to through their involvement in the “Herring K.eex” preparations, all are active in Tlingit culture and language. Rose Demmert and Rachel Moreno were very positive about how informative the signs are, and getting Tlingit information across, and Javier had excellent formatting ideas for layout and arrangement to make one map in particular less busy.

Lance Twitchell X'unei

Steve Henrickson

I sent copies by email but didn't hear back, Lance Twitchell is a language professor at UAS Juneau and Steve Henrickson is a curator at the Alaska State Museum, and specialist in 19th century colonial history

Harvey Kitka Yanshkawoo *

Harvey Kitka was extremely positive, in emailed response, and even more so with the full size print outs, saying they were good signs and appreciated inclusion of information about historic herring abundance

Louise Brady K'asheechtlaa

helped with the initial scope, sent by email, but has been busy and in and out of town

STA Natural Resources Committee, shared via email and full-size posters in a meeting spring 2025 (4/17/25) *

Mike Miller, Fred Olsen, Martha Moses, Lillian Feldpausch, Al Duncan, Pauline Duncan, George Bennett Sr., Al Wilson, Alana Peterson, Tommy Gee, Norm Kohler, Pat Alexander, Steve Johnson, staff Jeff Feldpausch

Very positive response: Harvey Kitka said they are nice signs, Jeff Feldpausch especially liked the shoreline map then and now, Martha Moses liked the aerial of the spawn. (Also got more

stories of fish, salmon in creeks into and out of Swan Lake and herring in lagoon where Sealing Harbor is now, where kids used to gather flapping herring left by the tide and fry them up.)

Sitka History Class participants *

I gave a class on “Sitka History for Tour Guides” that had an enrollment of 40 people, and had the full size print outs for review during breaks, and received specific spelling typo corrections from language teacher Roby Littlefield Kool'yeik, and general comments from others, including asking for more ids of photos, that was very helpful

STA Cultural Resources Committee and staff

shared via email, I brought the print outs to their meeting May 6 2025, but they ran out of time to look at physically. In the meeting they did talk about in the future creating a formal process for how to nominate individuals to work on and provide expertise for this kind of project. (The Cultural Resources Committee only recently started meeting again after stopping in 2020.)

Wednesday, November 19, 2025

Commercial Recreational Land Use Permit Application

As required by Sitka General Code 14.10 No person may conduct commercial recreational activities on city and borough of Sitka lands subject to this title except as authorized by a permit issued by the municipal staff as designated by the administrator.

APPLICANT INFORMATION

Business Name Tribal Tours

Primary Contact Jackie Ojala

Address [REDACTED]
Sitka, AK, 99835

Phone Number [REDACTED]

Email [REDACTED]

DETAILS OF TOUR OR GUIDED ACTIVITY

Season Start Date Sunday, April 26, 2026

Season End Date Wednesday, September 30, 2026

Commercial Allocations: For each area, the commercial carrying capacity is indicated in the far left column next to the area name, denoted as (maximum client group size/maximum groups per week). For each area at which you would like to request commercial recreational use, check the "Area of use" box. Additionally, provide your maximum proposed group size (clients only, not including guides) for each area; may not exceed commercial carrying capacity maximum group size. For groups per week, provide your estimated number of groups per week based on a season average that will use each area. Enter an estimated total client number using each area in the far right column.

	Area of use	Group Size	Groups per week	Total Clients
Cross Trail North (12/26)				
Cross Trail South (8/23)				
Gavan Hill Access (7/19)				
Indian River (7/23)				
Thimbleberry/Heart Lake (14/24)				

	Area of use	Group Size	Groups per week	Total Clients
Herring Cove/Beaver Lake (7/18)				
Herring Cove Beach (6/24)				
Blue Lake Road (12/26)				
Blue Lake (6/20)				
Green Lake Road (8/26)				
Green Lake (6/20)				
Swan Lake (6/16)	✓	There was no option for "other" here so I chose this option to move on with the application process. Areas of use are listed below.		
Eagle Beach ("Back Beach") (6/18)				
Sitka Sound Islands (6/18)				
Baranof Warm Springs (6/18)				
Goddard Hot Springs (6/14)				
Other (please list area below)				

OTHER - Areas of proposed use not listed above. Please list each area, group size, maximum groups per week and total client estimates.

Sea Walk (from Sitka National Historical Park to Harrigan Centennial Hall) and Downtown Sidewalks from Harrigan Centennial Hall, (Harbor Dr. and Harbor Way, Lincoln St., Katlian Ave., and Seward Ave.).
 Maximum number guests per tour = 20. Maximum number of tours per week = 7. Total client estimate = 1,140 Guests.

Details of tour or guided activity: Fully describe tour or activity in each area, including guided activity, outfitting resources provided, typical areas of use, etc.

See attached "2026 CBS Land Use Description - Tribal Tours"

*Our 2026 permit with the National Park Service will not be completed until February or March of 2026.

*Updated Insurance Certificate will be submitted after January 1st, 2026

Please include the following information and attachments with your application.

Certificate of Insurance (City & Borough of Sitka named as additionally insured)

Safety & Operating plan

Additional documentation (as needed/if applicable):
Copy of permit(s) from other agencies for use of joint-jurisdiction areas. If use of Baranof Warm Springs or Goddard Hot Springs is requested, attach copy of bathing instructions/etiquette provided to clients.

2026 Tribal Tours Fleet - Buses that may be used to pick up or drop off guests at any given time.

APPLICANT ACKNOWLEDGEMENT

Commercial Use Regulations:

- Applications and permits issued under [SGC 14.10](#) COMMERCIAL RECREATIONAL USE OF MUNICIPAL LANDS AND FACILITIES
- Guidance provided by the [2026 Commercial Recreational Land Use Plan](#)
- Permits shall expire on December 31st of each calendar year.
- Permits are valid only for the dates, times, activities, and areas specified.
- Permits are not automatically renewable. Issuance of a permit shall not entitle any priority or preferential consideration for subsequent, new, or additional permits for the same area or for related uses.
- Permit Fees will be invoiced after January 4, 2026 application closure.

Upon acceptance of a permit, all permittees shall execute an instrument under the terms of which the permittee shall agree to indemnify, defend, and hold harmless the City and Borough of Sitka from any and all claims for injury or damage to persons or property suffered in connection with the permittee's activities unless such injury or damage is caused by the gross negligence of the City and Borough of Sitka.

I certify that the business/operator(s) are registered with the CBS Sales Tax Office, unless specifically exempt from collecting and remitting sales taxes for sales outside of City and Borough of Sitka jurisdiction, and have no outstanding judgements to the City and Borough of Sitka.

Description of Tribal Tours Commercial Recreation Activities on CBS Lands

Location of Proposed Tours (see attached maps):

- 1) Rain Forest City Walk we will transport our guests from the ship to the Alaska Raptor Center. The guests will walk in a guided group of 20 or less from the Alaska Raptor Center through the park continuing down the Sea Walk to the Harrigan Centennial Hall where they will choose to stay downtown on their own or take the shuttles back to the Sitka Sound Cruise Terminal.
- 2) Discover Sheet'ká Kwáan walk. This guided tour will leave with a group of 15 or less from the O'Connell Bridge or Crescent Harbor lightering facility onto Harbor Drive, up to Castle Hill, cross Lincoln St. to Katlian Ave. to the Sheet'ká Kwáan Naa Kahídi, up to Kaagwaantaan St. and Seward St., then down American St. to Lincoln St., down to the Sitka Sound Science Center and back up the Sea Walk, ending back at the lightering facility.

Both of these tours will not need to utilize any CBS parking. However, in case of an emergency I have attached a list of the vehicles we will use to transport our guests.

Estimate of guests or group size

- Rain Forest City Walk will not exceed 20
- Discover Sheet'ká Kwáan walk will not exceed 15

Time of usage.

The times anticipated for use of these areas are Monday - Thursday 7:00 AM – 6:00 PM, during the tour season 4/29/2025 through 10/1/2025. Exceptions are:

2 Sundays in June, 2 Sundays in July, 1 Friday and 1 Sunday in September

Safety & Training requirements for our guides providing our tour activities

All guides will be trained and certified in first aid and CPR

All guides will have a radio for communication to base

In case of emergency evacuation a bus will be sent to pick up our guide and guests

Fee charged to the ships

Rain Forrest City Walk Child: [REDACTED] Adult [REDACTED]

Discover Sheet'ká Kwáan: [REDACTED]

Restroom accommodation and litter control

Rainforest City Walk- restrooms are located at the Alaska Raptor Center, Sitka National Park, and Harrigan Centennial Hall.

Discover Sheet'ká Kwáan- restrooms are located at Harrigan Centennial Hall and the Sheet'ká Kwáan Naa Kahídi

All tour guides will carry trash bags.

CITY AND BOROUGH OF SITKA

PARKS AND RECREATION COMMITTEE COMMERCIAL RECREATIONAL LAND USE PERMIT PROCEDURE & MOTION SHEET

Business: Tribal Tours
Contact: Nathan Kramer

- I. Chair Introduces Item
- II. Applicant Comments & Questions from Committee Members
- III. Public Comment
- IV. Committee Discussion/Deliberation
- V. Possible Motions
 - A. Conditions of Approval: SGC 14.10.030(C) states, “*A permit may contain conditions reasonably required for the protection and use of the area for which the permit is granted, including limitations as to time, area, equipment, user loading, traffic, parking, discharges, noise, and other factors.*” If the Committee would like to propose conditions of approval, this motion would be made prior to recommending permit approval:

“I move to propose the following conditions of approval: ___”
 - B. Recommending Permit Approval: SGC 14.10.030(B) states, “*The administrator may issue a permit for commercial recreational activities on city and borough lands that are recommended by the parks and recreation committee after public hearing and notice, subject to such conditions as the administrator may impose and only upon a determination that the use as proposed:*
 1. *Will not pollute or degrade the environment, resources, facilities, or atmosphere of the area; and*
 2. *Will not endanger the public health, safety, and welfare; and*
 3. *Will not significantly interfere with the use and enjoyment of the area by other members of the public.”*

If the Committee would like to recommend approval of the permit:

“I move to recommend approval of the commercial recreational land use permit as requested by Tribal Tours [subject to the proposed conditions of approval] and hereby make the required determinations regarding this use as listed in SGC 14.10.030(B)(1-3). “

- C. Recommending Permit Denial: SGC 14.10.030(D) states, *“The administrator may deny a proposed use upon a written determination that the use, alone or in combination with other uses, would cause an unreasonable level of environmental degradation, or other disturbance to the area. In making such determination, the administrator shall consider the nature and extent of the use, the number of users, and the impacts likely to result from the use, including traffic, noise, public access, loading, the availability of parking and other factors.”* If the Committee would like to recommend denial of the permit:

“ I move to recommend denial of the commercial recreational land use permit as requested by Custom Alaska Cruises because the Committee could not make the following determinations that the use as proposed:

<i>Will not pollute or degrade the environment, resources, facilities, or atmosphere of the area</i>	<i>because:</i>	
<i>Will not endanger the public health, safety, and welfare</i>	<i>because:</i>	
<i>Will not significantly interfere with the use and enjoyment of the area by other members of the public</i>	<i>because:</i>	

*Note: A recommendation of denial can be based on not being able to make one or more of the required determinations under SGC 14.10.030(B)(1-3). The motion and basis of recommended denial only needs to include rationale regarding the one or more required determinations that could not be made.

Commercial Recreational Land Use Permit Application

As required by Sitka General Code 14.10 No person may conduct commercial recreational activities on city and borough of Sitka lands subject to this title except as authorized by a permit issued by the municipal staff as designated by the administrator.

DETAILS OF TOUR OR GUIDED ACTIVITY

Season Start Date Sunday, April 12, 2026

Season End Date Saturday, October 3, 2026

Commercial Allocations: For each area, the commercial carrying capacity is indicated in the far left column next to the area name, denoted as (maximum client group size/maximum groups per week). For each area at which you would like to request commercial recreational use, check the "Area of use" box. Additionally, provide your maximum proposed group size (clients only, not including guides) for each area; may not exceed commercial carrying capacity maximum group size. For groups per week, provide your estimated number of groups per week based on a season average that will use each area. Enter an estimated total client number using each area in the far right column.

	Area of use	Group Size	Groups per week	Total Clients
Cross Trail North (12/26)				
Cross Trail South (8/23)				
Gavan Hill Access (7/19)				
Indian River (7/23)				
Thimbleberry/Heart Lake (14/24)				

	Area of use	Group Size	Groups per week	Total Clients
Herring Cove/Beaver Lake (7/18)				
Herring Cove Beach (6/24)				
Blue Lake Road (12/26)				
Blue Lake (6/20)				
Green Lake Road (8/26)				
Green Lake (6/20)				
Swan Lake (6/16)				
Eagle Beach ("Back Beach") (6/18)				
Sitka Sound Islands (6/18)				
Baranof Warm Springs (6/18)	✓	12	1	360 (Max)
Goddard Hot Springs (6/14)				
Other (please list area below)				

OTHER - Areas of proposed use not listed above. Please list each area, group size, maximum groups per week and total client estimates.

Takatz Bay (Group size 12, 3 visits per week (maybe), 500 total clients)

Details of tour or guided activity: Fully describe tour or activity in each area, including guided activity, outfitting resources provided, typical areas of use, etc.

Area #1: Baranof Warm Springs

-We would like to be able to hike the boardwalk to the Springs and if possible visit the springs. This would be for our smallest vessel the safari Quest (holds 22 pax max)

Area #2: Takatz Bay

We would like to go hiking in the below, red lines areas. We will also be using this area for kayak and skiff tours -all operated on the water without going on land.

- Safari Quest (SQU) (22 pax)
- Wilderness Legacy (WIL) (86 pax)
- Safari Endeavour (SEN) (84 pax)
- Wilderness Discoverer (WND) (76 pax)
- Wilderness Adventurer (WAV) (60 pax)

(Please see use areas in maps provided in Safety Plans).

We will travel by Master Vessel, and arrive to each location via smaller skiff.

Please include the following information and attachments with your application.

Certificate of Insurance (City & Borough of Sitka named as additionally insured)

Safety & Operating plan

Additional documentation (as needed/if applicable):
Copy of permit(s) from other agencies for use of joint-jurisdiction areas. If use of Baranof Warm Springs or Goddard Hot Springs is requested, attach copy of bathing instructions/etiquette provided to clients.

APPLICANT ACKNOWLEDGEMENT

Commercial Use Regulations:

- Applications and permits issued under [SGC 14.10](#) COMMERCIAL RECREATIONAL USE OF MUNICIPAL LANDS AND FACILITIES
- Guidance provided by the [2026 Commercial Recreational Land Use Plan](#)
- Permits shall expire on December 31st of each calendar year.
- Permits are valid only for the dates, times, activities, and areas specified.
- Permits are not automatically renewable. Issuance of a permit shall not entitle any priority or preferential consideration for subsequent, new, or additional permits for the same area or for related uses.
- Permit Fees will be invoiced after January 4, 2026 application closure.

Upon acceptance of a permit, all permittees shall execute an instrument under the terms of which the permittee shall agree to indemnify, defend, and hold harmless the City and Borough of Sitka from any and all claims for injury or damage to persons or property suffered in connection with the permittee's activities unless such injury or damage is caused by the gross negligence of the City and Borough of Sitka.

I certify that the business/operator(s) are registered with the CBS Sales Tax Office, unless specifically exempt from collecting and remitting sales taxes for sales outside of City and Borough of Sitka jurisdiction, and have no outstanding judgements to the City and Borough of Sitka.

Signature

A handwritten signature in black ink, appearing to be "M.A. [unclear]". The signature is written in a cursive style with some loops and a final flourish.

Hello Sitka Burrough District,

I am writing on behalf of UnCruise Adventures, a small, family-run expedition cruise line founded by Dan Blanchard in 1996. Beginning with just one yacht in Alaska, our company has grown to operate eight vessels and two offices—one in Juneau, Alaska, and the other in Seattle, Washington. We offer a variety of itineraries, primarily focused on the stunning regions of Southeast Alaska, as well as routes in Mexico and Hawaii.

We are writing to inquire about permits to visit the Sitka Burrough District. Please see the following answers to your permitting questions:

- A. Location and explanation of proposed use, including maps.
 - Area #1: Baranof Warm Springs
 - We would like to be able to hike the boardwalk to the Springs and if possible visit the springs for the Safari Quest only (SQU) (22 pax).

- Area #2: Takatz Bay
 - We would like to go hiking in the below, red lines areas. We will also be using this area for kayak and skiff tours -all operated on the water without going on land.

UnCruise
ADVENTURES

- We have several Vessels we would like to ask permission for, for Takatz Bay:
 - Safari Quest (SQU) (22 pax)
 - Wilderness Legacy (WIL) (86 pax)
 - Safari Endeavour (SEN) (84 pax)
 - Wilderness Discoverer (WND) (76 pax)
 - Wilderness Adventurer (WAV) (60 pax)

B. Description of transportation to site, including mode of transportation and plan for client parking.

- Our mode of transportation to the site would be via small boat (zodiac, seneca, pontoon) from our Master Vessels that will stay anchored offshore. We will not use any transportation while on land.

C. Estimate number of participants and/or group size.

- The number of guests participating in each activity will depend on the permit area restrictions. We also conduct our operations with our standard guide-to-guest ratio of 1 guide:10 passengers. For larger groups, we assign an additional crew member to assist passengers, maintaining a ratio of 2:12. We typically limit the number of groups on land to two groups at any given time and strive to keep the groups at least a quarter mile apart to enhance the wilderness experience.
- For the season we are estimating a total of 300 maximum participants for Baranof Warm Springs (This is if every passenger from every week went, which is doubtful) and 500 maximum participants for Takatz Bay.

D. Time of desired usage.

- Baranof Warm Springs: We would like to use for our smallest boat (SQU) we would request May-September.
- Takatz Bay: We would like to request April-October for all vessels.

E. Plans for restroom accommodation, litter control, emergency evacuation, & clientele safety briefing.

- Our activities are structured to allow guests to return to the vessel for all mealtimes, and we do not conduct any overnight stays or camping in these areas. Each of our activities are 1-2 hours long so that the guests can come back to the vessel and use the restroom onboard.
- All guides are trained in Leave No Trace (LNT) principles. Guides emphasize LNT standards to guests prior to disembarking. We also provide boot cleaning brushes onboard, and guests are encouraged to use them before participating in any activities. We supply rubber boots for our guests and ensure they are cleaned after each activity to prevent the introduction of invasive species. A hose is available for washing gear as needed as the guests depart and arrive to the master vessel. Our guides and guests make sure to take any litter they may create back to the vessel with them, as well we are always on the lookout for litter in wilderness areas so we can pick up the trash, so future visitors can have a great experience.
- Each of our guides carries a VHF handheld radio and GPS. Every guide onboard our vessels is Wilderness First Responder trained or EMT trained. If any emergency were to happen the WFR training from our guides would be put into place. They would make a call to the Master Vessel who would deploy the medical officer and any help they would need. During this the captain would call medical services, the US Coast guard and the main office to activate our Emergency Management Plan (EMP available to share upon request).
- Each of our guests are presented with a safety briefing by the Captain, Expedition Leader and Chief Mate at the start of every cruise. They are also presented with an orientation on day one of the cruise where they are taught our safety procedures when it comes to kayaking, hiking, bear safety and skiff tours. Before every skiff tour the boat driver and expedition guide discuss the safety procedures for each tour again. Once a week the vessels practice USCG related drills and company related land-based emergency drills.

- F. Training requirements for personnel conducting transport and tour activities.
- Deckhands: Each of our deckhands holds a Master's License to operate our skiffs. They are then given a test by the Captain or Chief Mate on small boat operations. Once they are checked off on small boat safety and guest drop off safety they are able to operate the small boats.
 - Each guide goes through a series of trainings before the master vessels head to Alaska. These trainings include -bear training, skiff training, kayak safety, orienteering, GPS training, etc. All guides need to pass these trainings to be able to work in Alaska. All guides are Wilderness First Responder trained.
- G. Schedule of fees/charges to clients and a description of any collection, disbursement, royalty, commission or similar arrangements with other tour brokers, agents or cruise ship companies.
- There is not a schedule of fees or charges for our clients. The guests will put a deposit down on their trip when they first book it (\$500 deposit) and then they need to submit their final payment 90 days before the cruise. Our rates are on a per person basis.
 - We have no commission or similar arrangements with other tour brokers or agencies.
- H. Physical descriptions and license numbers of each vehicle to be used in the proposed commercial activity
- See attached small boat list 2026

Dear Safari Quest Guest,

Welcome to one of Southeast Alaska's most special spots -Baranof Warm Springs! For today's visit please keep the following in mind:

Before You Go

- Shower first onboard the vessel before you depart for the warm springs.
- The vessel will provide a spa towel for use at the warm springs, please be sure to Bring this towel, your water bottle, and sandals.
- We ask that you do not bring any alcohol or other beverages (besides water bottle) on shore.
- Do not wear lotions, sunscreen, makeup, or strong scents into the springs. These contaminate the water and surrounding ecosystem!

Etiquette while at Baranof Warm Springs:

- Keep noise low. This is a quiet, serene place meant for relaxing.
- Phones on silent and avoid calls.
- No glass containers anywhere near the springs.
- Pack it in, pack it out. Leave absolutely no trash behind!

Safety

- Mind the rocks—they can be slippery.
- Soak slowly. Start with a few minutes and take breaks.
- Stay hydrated and monitor how you feel—heat can sneak up on you!

Thank you for your understanding and compliance,
Your Safari Quest Crew

PARKS AND RECREATION COMMITTEE COMMERCIAL RECREATIONAL LAND USE PERMIT PROCEDURE & MOTION SHEET

Business: Innersea Discoveries, DBA UnCruise
Contact: Marlie Shelton

- I. Chair Introduces Item
- II. Applicant Comments & Questions from Committee Members
- III. Public Comment
- IV. Committee Discussion/Deliberation
- V. Possible Motions
 - A. Conditions of Approval: SGC 14.10.030(C) states, “*A permit may contain conditions reasonably required for the protection and use of the area for which the permit is granted, including limitations as to time, area, equipment, user loading, traffic, parking, discharges, noise, and other factors.*” If the Committee would like to propose conditions of approval, this motion would be made prior to recommending permit approval:

“*I move to propose the following conditions of approval: ___*”
 - B. Recommending Permit Approval: SGC 14.10.030(B) states, “*The administrator may issue a permit for commercial recreational activities on city and borough lands that are recommended by the parks and recreation committee after public hearing and notice, subject to such conditions as the administrator may impose and only upon a determination that the use as proposed:*
 1. *Will not pollute or degrade the environment, resources, facilities, or atmosphere of the area; and*
 2. *Will not endanger the public health, safety, and welfare; and*
 3. *Will not significantly interfere with the use and enjoyment of the area by other members of the public.*”

If the Committee would like to recommend approval of the permit:

“I move to recommend approval of the commercial recreational land use permit as requested by Innersea Discovery, DBA UnCruise [subject to the proposed conditions of approval] and hereby make the required determinations regarding this use as listed in SGC 14.10.030(B)(1-3). “

- C. Recommending Permit Denial: SGC 14.10.030(D) states, *“The administrator may deny a proposed use upon a written determination that the use, alone or in combination with other uses, would cause an unreasonable level of environmental degradation, or other disturbance to the area. In making such determination, the administrator shall consider the nature and extent of the use, the number of users, and the impacts likely to result from the use, including traffic, noise, public access, loading, the availability of parking and other factors.”* If the Committee would like to recommend denial of the permit:

“ I move to recommend denial of the commercial recreational land use permit as requested by Custom Alaska Cruises because the Committee could not make the following determinations that the use as proposed:

<i>Will not pollute or degrade the environment, resources, facilities, or atmosphere of the area</i>	<i>because:</i>	
<i>Will not endanger the public health, safety, and welfare</i>	<i>because:</i>	
<i>Will not significantly interfere with the use and enjoyment of the area by other members of the public</i>	<i>because:</i>	

*Note: A recommendation of denial can be based on not being able to make one or more of the required determinations under SGC 14.10.030(B)(1-3). The motion and basis of recommended denial only needs to include rationale regarding the one or more required determinations that could not be made.

OTHER - Areas of proposed use not listed above. Please list each area, group size, maximum groups per week and total client estimates.

CBS lands around Takatz Bay.

Maximum group size 20, including guides. Typical group size 10-12 including guides.

Max: 66-108 clients per vessel on a given day.

Max per week: varies because visitation may be uneven; several weeks may pass between visits, or two of our vessels may happen to visit during the same week. Estimate 8-12 visits throughout season.

Total client estimate per season: 800

Details of tour or guided activity: Fully describe tour or activity in each area, including guided activity, outfitting resources provided, typical areas of use, etc.

Lindblad Expeditions is an expedition cruise company operating in Southeast Alaska from April to October. We offer multi-day itineraries on small ships (66-108 pax), with guided excursions in remote areas. We adhere to the Outfitter Guide BMP Agreement between small cruise operators and big game hunting guides; per this agreement, we refrain from visiting Takatz during hunting season. We will visit May 21st onward.

At Takatz Bay, activities will include hiking, kayaking, paddleboarding, and Zodiac cruising. We rotate activities into multiple rounds to reduce total numbers hiking ashore at a time. For example, we may offer one round of Zodiac cruises and kayaking to half our guests while other guests on hikes, then switch for round 2.

For hiking, we tender guests ashore in Zodiacs, separating them into small guided groups that disperse away from each other. Hikes are offered at various levels of difficulty - for example, one group completes a faster-paced challenging hike, another a moderate hike, another a leisurely photo walk. Activities ashore typically do not exceed 3.5 hours.

Please include the following information and attachments with your application.

Operating Plan – City & Borough of Sitka – Takatz Bay

I. BUSINESS / ORGANIZATION INFORMATION

Official Title of Operation:

Legal Entity Name*: Lindblad Expeditions, LLC

Name on the State of Alaska business license: Lindblad Expeditions, LLC1

Other trade names, marketing names, etc., if any: National Geographic Lindblad Expeditions

Mailing Address: [REDACTED] New York, NY 10036

Website URL: <https://expeditions.com>

Owner: Lindblad Expeditions, LLC

Point of Contact / Holder Representative:

Name: Sarah Weisbuch

Title: Manager, Expedition Permits

Phone Number: [REDACTED]

Email: [REDACTED]

II. GENERAL OPERATIONS

a) Services Provided to the Public

Operating season in Southeast Alaska: April 25th- October 3rd, 2026
Operating season on CBS lands at Takatz Bay: May 21-October 3rd, 2026

Ships: National Geographic Quest, National Geographic Venture, National Geographic Sea Bird, National Geographic Sea Lion

Anticipated number of trips: In 2026, Lindblad Expeditions will operate approximately 90 voyages in Southeast Alaska. These voyages vary from 6 days to 15 days.

Anticipated usage on Takatz Bay lands:

- Max clients at Takatz Bay lands on any given date: 108 (NG Venture) / 106 (NG Quest) / 66 (NG Sea Bird/NG Sea Lion)
- Estimated 8-12 visits throughout season
- Estimated client totals for Takatz Bay lands in 2026: 800

Days and hours of use: Various (daylight hours)

Activities:

- Main activities: Hiking
- Incidental activities: kayaking, standup paddleboarding, zodiac tours
- We will adhere to all CBS commercial recreational permit conditions and requirements when operating on CBS lands in Takatz Bay.

Method of Access: Expedition vessels will use Zodiac Milpro DIBs to access CBS lands.

b) Cooperation with Other Users

Our standard practice is to maintain ongoing communication with other operators / cruise ships in the area to avoid conflicts and crowding. We participate in the Intentions List and the OG BMP Agreement.

c) Safety

See attached safety plan.

d) Environmental Protection

In the field, guides will incorporate "Leave No Trace" methods for all activities, including trash disposal and personal waste disposal on the national forest. Principles and techniques of "Leave No Trace" outdoor behaviors appropriate to Southeast Alaska will be discussed, including low-impact methods of human waste disposal and the "pack it in - pack it out" policy. We divide our clients into small groups and comply with any group size requirements to minimize impacts.

Medvejie Lake Trail: max group size 6, 1 group per week, max 50 clients

Takatz Bay: max group size 6, 1 group per week, max 50 clients

Details of tour or guided activity: Fully describe tour or activity in each area, including guided activity, outfitting resources provided, typical areas of use, etc.

Baranof Warm Springs

Activities include walking from shore or the community dock to the warm springs, soaking in the springs, and returning to the boat.

The vessel (M/Y Elysium) will remain anchored in the bay, and guests will be transported to shore via RIB or kayak as appropriate.

Guide-to-guest ratio: two guides for 4–6 guests.

Medvejie Lake Trail

Activities include a guided hike up the Medvejie Lake Trail, canoe transport across the lake to the waterfall area, and hiking back to the trailhead before returning to the vessel.

Guests reach shore via RIB inflatable or kayak, with the vessel anchored or docked nearby.

Guide-to-guest ratio: two guides for 4–6 guests.

Takatz Bay

Activities include guided exploration of shore line and intertidal zone.

Guests reach shore via kayak or paddle board, with vessel anchored nearby.

Guide-to-guest ratio: two guides for 4-6 guests.

Please include the following information and attachments with your application.

Safety & Operating plan

Additional documentation (as needed/if applicable):
Copy of permit(s) from other agencies for use of joint-jurisdiction areas. If use of Baranof Warm Springs or Goddard Hot Springs is requested, attach copy of bathing instructions/etiquette provided to clients.

 Elysium CBS Land Use Permit Attach... .pdf

APPLICANT ACKNOWLEDGEMENT

Commercial Use Regulations:

- Applications and permits issued under [SGC 14.10](#) COMMERCIAL RECREATIONAL USE OF MUNICIPAL LANDS AND FACILITIES
- Guidance provided by the [2026 Commercial Recreational Land Use Plan](#)
- Permits shall expire on December 31st of each calendar year.
- Permits are valid only for the dates, times, activities, and areas specified.
- Permits are not automatically renewable. Issuance of a permit shall not entitle any priority or preferential consideration for subsequent, new, or additional permits for the same area or for related uses.
- Permit Fees will be invoiced after January 4, 2026 application closure.

Upon acceptance of a permit, all permittees shall execute an instrument under the terms of which the permittee shall agree to indemnify, defend, and hold harmless the City and Borough of Sitka from any and all claims for injury or damage to persons or property suffered in connection with the permittee's activities unless such injury or damage is caused by the gross negligence of the City and Borough of Sitka.

I certify that the business/operator(s) are registered with the CBS Sales Tax Office, unless specifically exempt from collecting and remitting sales taxes for sales outside of City and Borough of Sitka jurisdiction, and have no outstanding judgements to the City and Borough of Sitka.

ELYSIUM EXPEDITIONS

LAND USE PERMIT: LOCATIONS AND ACTIVITY DETAILS

Locations of Proposed Activities

Elysium Expeditions is hoping to guide small groups (4–6 guests per group) with two guides at the following Sitka area locations:

- Baranof Warm Springs
- Medvejie Lake Trail
- Takatz Bay

We anticipate accessing these locations intermittently throughout the operating season, with a maximum of approximately 10 tours. Each tour hosts 4–6 guests accompanied by 2 guides, resulting in an estimated total of up to 36 guests for the season. Use of each site will vary based on weather, safety considerations, and guest interest. While these locations will not be utilized on every tour, we hope to maintain access to them whenever conditions and guest preferences make a visit appropriate.

Detailed Explanation of Activities

- ❖ Baranof Warm Springs
 - Activities include walking from shore or the community dock to the warm springs, soaking in the springs, and returning to the boat.
 - The vessel (*M/Y Elysium*) will remain anchored in the bay, and guests will be transported to shore via RIB or kayak as appropriate.
 - Guide-to-guest ratio: two guides for 4–6 guests.
- ❖ Medvejie Lake Trail
 - Activities include a guided hike up the Medvejie Lake Trail, canoe transport across the lake to the waterfall area, and hiking back to the trailhead before returning to the vessel.
 - Guests reach shore via RIB inflatable or kayak, with the vessel anchored or docked nearby.
 - Guide-to-guest ratio: two guides for 4–6 guests.
- ❖ Takatz Bay
 - Activities include guided exploration of shore line and intertidal zone.
 - Guests reach shore via kayak or paddle board, with vessel anchored nearby.
 - Guide-to-guest ratio: two guides for 4-6 guests.

Days/Hours of operation: Monday-Wednesday, between 8am-3pm. (Our 4 day expedition trips leave port on Sunday morning, and return on Thursday afternoon, but we don't plan on utilizing City Land during the first and last day because we will be motoring to our destinations.)

We orchestrated it this way because we wanted to make sure the weekends were not overpopulated with tourists, thus ensuring the locals still can access land on their weekends in solitude.

Operating Season: June 1, 2026 - August 31, 2026

Restroom Accommodations, Litter Plan, Emergency Evacuation, and Client Safety Briefing

- ❖ Restroom Accommodations
 - Guests will be encouraged to use onboard restroom facilities prior to departure. If restroom needs arise on the trail, Leave No Trace human waste protocols will be followed.
 - ❖ Litter and Waste Management
 - All litter and personal items will be packed in and packed out. Guides will conduct a final sweep of all visited areas to ensure no waste remains.
 - ❖ Client Safety Briefing
 - Prior to any shore excursion, guides will provide a safety briefing covering terrain, weather considerations, wildlife awareness (including bear encounter guidelines), group communication, and the use of required safety equipment.
 - ❖ Emergency Evacuation Procedures
 - Guides will carry a VHF handheld radio, Garmin satellite communication device, bear spray, and first aid supplies during all shore excursions.
 - In the event of an emergency, evacuation procedures will follow Coast Guard and company safety protocols, including contacting USCG or local SAR services, returning guests to the vessel or closest extraction point, and stabilizing individuals until assistance arrives.
-

Schedule of Fees / Charges & Third-Party Arrangements

Elysium Expeditions offers privately booked, all-inclusive 4-day charter trips. Fees are charged per trip and disclosed to clients in advance through a written charter agreement. The charter fee is [REDACTED] for four (4) guests, [REDACTED] for five (5) guests, and [REDACTED] for six (6) guests. Elysium Expeditions books and collects payment directly from clients and does not operate through cruise ship companies. No commissions, royalties, or percentage-based referral

agreements are in place. In limited cases, optional add-on services may be provided by local, independently operated vendors, with Elysium Expeditions remitting payment at a pre-arranged flat rate.

Inventory of Vehicles/Vessels for Proposed Permit Operations

- **M/V *Elysium*** – 55-foot motor yacht
Primary vessel used for multi-day charter operations, guest accommodations, and onboard activities.
- **M/V *Zephyr*** – 25-foot Hewescraft aluminum vessel
Used as a tender for shore access, guest transfers, and nearshore operations when conditions allow.
- **RIB Inflatable**
Used for transporting guests and crew to shore when the primary vessel is anchored.
- **Kayaks**
Used for non-motorized access to shore and nearshore exploration in appropriate conditions.

Baranof Warm Springs – Bathing Instructions & Etiquette

Guests visiting Baranof Warm Springs are expected to follow respectful bathing practices to protect the site, ensure public safety, and honor local customs.

- **Cleanliness:** Guests must rinse off before and after use of the pools aboard the Elysium. No soap, shampoo, or personal care products may be used in or near the springs.
- **Soaking Safety:** Water temperatures vary and can be very hot. Guests should enter slowly, limit soak time, take breaks, and hydrate regularly.
- **Respect for Others:** Quiet voices are expected. Guests must share pools courteously and limit soak time if others are waiting.
- **Clothing & Privacy:** Bathing suit use is recommended. Photography of others is prohibited without explicit consent.
- **Environmental Care:** Guests must stay on established trails, avoid disturbing vegetation, and pack out all trash. Glass containers are prohibited.
- **Restrooms:** Guests must use restroom facilities prior to soaking. Urination or defecation in the springs is strictly prohibited.
- **Wildlife:** Wildlife awareness is required at all times.
- **Leave No Trace:** All visits follow Leave No Trace principles and ethical stewardship of this natural resource.

Failure to follow these guidelines may result in removal from the site to protect public safety and preserve the springs for future use.

PARKS AND RECREATION COMMITTEE COMMERCIAL RECREATIONAL LAND USE PERMIT PROCEDURE & MOTION SHEET

Business: Elysium Expeditions
Contact: Dustin Hack

I. Chair Introduces Item

II. Applicant Comments & Questions from Committee Members

III. Public Comment

IV. Committee Discussion/Deliberation

V. Possible Motions

- A. Conditions of Approval: SGC 14.10.030(C) states, “*A permit may contain conditions reasonably required for the protection and use of the area for which the permit is granted, including limitations as to time, area, equipment, user loading, traffic, parking, discharges, noise, and other factors.*” If the Committee would like to propose conditions of approval, this motion would be made prior to recommending permit approval:

“I move to propose the following conditions of approval: ___”

- B. Recommending Permit Approval: SGC 14.10.030(B) states, “*The administrator may issue a permit for commercial recreational activities on city and borough lands that are recommended by the parks and recreation committee after public hearing and notice, subject to such conditions as the administrator may impose and only upon a determination that the use as proposed:*

- 1. Will not pollute or degrade the environment, resources, facilities, or atmosphere of the area; and*
- 2. Will not endanger the public health, safety, and welfare; and*
- 3. Will not significantly interfere with the use and enjoyment of the area by other members of the public.”*

If the Committee would like to recommend approval of the permit:

“I move to recommend approval of the commercial recreational land use permit as requested by Elysium Expeditions [subject to the proposed conditions of approval] and hereby make the required determinations regarding this use as listed in SGC 14.10.030(B)(1-3). “

- C. Recommending Permit Denial: SGC 14.10.030(D) states, *“The administrator may deny a proposed use upon a written determination that the use, alone or in combination with other uses, would cause an unreasonable level of environmental degradation, or other disturbance to the area. In making such determination, the administrator shall consider the nature and extent of the use, the number of users, and the impacts likely to result from the use, including traffic, noise, public access, loading, the availability of parking and other factors.”* If the Committee would like to recommend denial of the permit:

“ I move to recommend denial of the commercial recreational land use permit as requested by Custom Alaska Cruises because the Committee could not make the following determinations that the use as proposed:

<i>Will not pollute or degrade the environment, resources, facilities, or atmosphere of the area</i>	<i>because:</i>	
<i>Will not endanger the public health, safety, and welfare</i>	<i>because:</i>	
<i>Will not significantly interfere with the use and enjoyment of the area by other members of the public</i>	<i>because:</i>	

*Note: A recommendation of denial can be based on not being able to make one or more of the required determinations under SGC 14.10.030(B)(1-3). The motion and basis of recommended denial only needs to include rationale regarding the one or more required determinations that could not be made.
