Persons to be heard - Kent - Mean Queen bed is finished.

Compost and mulch went quickly. People are dumping weeds in the grass pile – it will need to be dumped and start over. Signs will be added to hopefully keep dumping away.

Got a lot of plants from Pacific High School. Marissa (city) asked Andrea(Pacific High) to plant specific plants for the city. The city paid for them at a good price. Planted these at Sitka High entrance bed. Pacific High is installing planter boxes behind the Bishop's house with edible plants.

New Business

Work at the Harbor Way Planting. Next Sunday at 11:00. Plan for an hour

Waiting for Marissa to let us know what help she needs.

Deb asked Kent to look at the planting bed at HCH across from the Rose Gallery. We've planted ground cover twice. Maybe we could get some mulch in? We could spread it.
