

Tree and Landscape Committee Meeting

Feb 17, 2026

Meeting Minutes

Attendance:

Deb Miller

Tom Duva

Joe D'Arienzo

Barbara Teepe

Hours Deb 4, Joe 1, Tom 1, Joann 1

January Meeting minutes read and approved

Persons to be heard:

Scott Saline requests work done on the flume trial near Raptor Center. We need to schedule a tour.

Kent discussed replacing the trees in the planters at HCH with dwarf maples and moving the trees in the planters currently to the MQ project.

Old Business:

In review of the MQ planting sematic, there were concerns if the fir trees would flourish in such shallow soil. Mary of MQ had concerns about visibility?? The fate of the spirea is still uncertain.

Deb will place the plant order with West Coast Nursery and try to combine orders with Community Land Trust order for shipment in late April or May of this year.

Outer Coast may help with the prep work and planting. Deb and Tom reached out to Lucas who runs the volunteer program, and he seemed to think it would be a good fit.

New Business:

Joe discussed a plum tree on Back St. which has many suckers on it. These could be harvested and distributed to the community. Tom and Deb looked at the site and there are many harvestable plum tree starts.

Adjourn: Next Meeting Tuesday March 17, 2026
