

## PROJECT INFORMATION FOR PROJECT NUMBER 90843:

### LAKE-HIRST AND MONASTERY-KINKEAD UTILITY & STREET IMPROVEMENTS (LHMK)

*Vicinity Map: LMHK Utilities and Street Improvements*

*LHMK Website QR Code*

**Project Description:** LHMK Utility and Streets Improvement Project will replace the existing underground municipal wastewater and drinking water utilities and revitalize the streets, associated drainage and pedestrian facilities in the Swan Lake area of Sitka, including Lake Street, Monastery Street, Hirst Street and Kinkead Street. The project will replace the sewer and water infrastructure, install a new underground storm drain system, and replace the stream culverts for Wrinklneck Creek. The project will include sidewalk improvements aligning with Americans with Disabilities Act requirements and signalized pedestrian crossings on Lake Street. All other residential streets will be widened to safe lane widths. The project will rehabilitate all streets and finish the surfaces with new asphalt pavement and striping.

The City and Borough of Sitka (CBS) has identified that the critical utility infrastructure located beneath Lake Street, Hirst Street, Monastery Str” Project Narrativeet, and Kinkead Street is at the end of its useful life and in need of replacement. In addition to improving the reliability of critical utilities in the said areas, this project provides an opportunity to replace road paving, improve local storm drainage, and improve pedestrian safety.

**Schedule:** Design is currently at 65%; Public Meeting anticipated Spring of 2024; Public Comment period April-June 2024; Final Design anticipated June-July 2024; Construction anticipated to be in two phases: Lake St and Kinkead St. in 2025 and the remainder in 2026.

**Points of Contact:** Loren Gehring, CBS Project Manager; Michael Harmon, CBS Municipal Engineer
