June 2023 Minutes approved.

Persons to be heard – Connor

Connor is the new building and parks supervisor. Ron Vincent is the public works director. His old position is open. There is a temp starting on Monday. Connor is creating a rotation for her to work on maintenance.

A large cottonwood limb fell on Sunday at the crescent park strip. Absolute Tree Care took care of it. They are going to evaluate removing the tree.

Another tree that may come out is a scraggly pine tree in the garden bed in the state building. It is interfering with a camera. A volunteer maple sapling is growing and a couple of quaking aspens in the area.

A place we can look at is a strip between the playground and the science center. It should be refurbished. Probably removing and start from scratch.

There are a couple of beds in front of Centennial Hall that need refurbishing. Connor has a concept for a planting plan. Funding could be from bed tax or cruise ship head tax. He will send out the drawing for us to work on.

JJ mentioned the possibility of a beautification plan that we could participate in.
