

CITY AND BOROUGH OF SITKA

FISCAL YEAR 2024

CONSOLIDATED OPERATING BUDGET

CITY AND BOROUGH OF SITKA

A COAST GUARD CITY

May 3, 2023

Mayor Eisenbeisz, Assembly Members and Fellow Citizens of the City and Borough of Sitka,

In accordance with the provisions of Article XI, Section 11.02 of the Home Rule Charter of the City and Borough of Sitka, the Fiscal Year 2024 (FY24) Consolidated Operating Budget of the City and Borough of Sitka (CBS) is hereby presented for your approval.

Fiscal year 2023 (FY23)

FY23 is proving to be a year of recovery after nearly three years of grappling with the uncertainty resulting from the COVID-19 pandemic. Over the past year, growth in the tourism industry has fueled CBS revenue at a level that exceeds pre-pandemic levels. It is important to note that while the increased revenue is a welcome side-effect of increased tourism, there are a number of challenges that the CBS faces as a result of tourism growth, lingering economic impacts of the pandemic, and unfunded federal and state mandates.

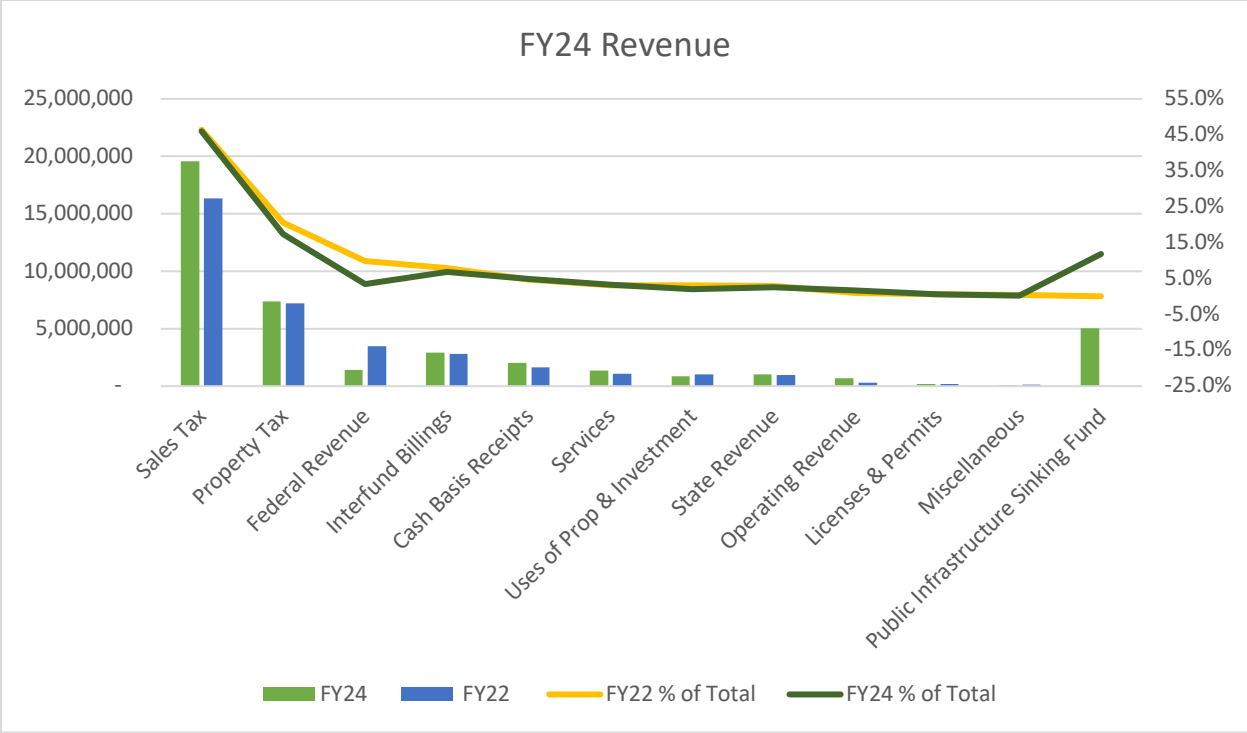

The rapid increase in cruise passengers as well as the high demand of independent travelers has created or exacerbated existing problems. The high number of cruise visitors and associated closure of downtown streets has put significant pressure on staff. While the expense for staff can be covered by revenue generated by commercial passenger vessel excise taxes, the effort needed diverts staff from other critical tasks. In addition, the high demand for hotels and short-term rentals has put pressure on an already scarce housing supply, which makes filling positions and retaining staff even more challenging.

Post-pandemic, the economy remains volatile. As we prepare to move into FY24, inflation remains stubbornly high. This puts pressure on the CBS across the board but has an outsized impact on the cost of capital projects. While there are more opportunities for federal funding, those are offset by unfunded mandates. Filling positions within the CBS continues to be a challenge and could potentially limit the capacity of the municipality to obtain and implement grant funding.

Finally, in fall of FY23 the CBS Assembly approved a five-year strategic plan. With this plan, we now have a guiding document to help prioritize and focus on those goals most important to the community. The FY24 budget was developed using these goals to determine where limited resources should be focused.

FY24 Revenue Budget

From FY22 to the FY24 budget, the CBS's revenue is projected to grow from \$35.3 million to \$42.6 million. \$5.1 million of the increase represents a transfer in of funds transferred into the Public Infrastructure Sinking Fund (PISF) at the end of FY22. Based on FY23 performance to date, an increase of nearly \$3 million from FY22 levels is projected for sales tax revenue, which helps to offset the decrease in federal relief funding. The overall FY24 increase in sales tax from FY23 projections is 3%, which is likely conservative given the growth in tourism and continuing high inflation.

Other areas of increased revenue include an increase in state funding for jail contracts and Supplemental Emergency Medical Transport (SEMT) payments (increased payments for Medicaid covered ambulance services). The reduction in federal revenue is indicative of the ending COVID-19 relief programs.

Total revenue budgeted for the General Fund for FY24 is \$42,617,789.

FY24 Expense Budget

The FY24 expense budget was guided by the newly approved strategic plan. Staff were directed to consider how all services align with the strategic plan. Services at current levels that were determined to align with the strategic plan were budgeted using a zero-based budget process. Any changes to the level of service or deviation from core services were presented using forms that tie all resource requests to the strategic plan. These requests were presented to the Assembly and incorporated into the expense budget as follows:

Strategic goal	Resource
1. Preserve the quality of life and affordability for all Sitkans	Housing study, non-profit support, Sitka Historical Society, Senior Center, the Ride, Sitka Homeless Coalition, elimination of Code Enforcement Officer
2. Improve communications and strengthen relationships within the community and organization	Record Migration/digitization, SAFV support, REAL Institute
3. Align resources and financial and economic policies for a sustainable community	Building plan review services, SEDA support, fiscal policy development

4. Plan and invest in sustainable infrastructure for future generations	Asset management as organizational priority, additional engineering/contract support, vehicle monitoring system, Sitka Trail Works support
5. CBS is recognized as being a great place to work and excellent service provider to the community	Time tracking system, voting tabulator replacement, improvement of financial systems, finance personnel training

NEW (NET) INVESTMENT FY2024 (\$890,305)

In addition to the newly added initiatives, due to stubbornly high inflation, we continue to see the cost of current levels of service increase. This is particularly notable in the challenges the CBS is facing in maintaining necessary staffing levels. In addition to a cost-of-living adjustment in line with current rates of inflation and rates negotiated through collective bargaining agreements, the CBS expects to conduct a compensation study to ensure that appropriate levels of compensation are being offered in order to attract and retain the skilled employees needed to provide the expected levels of service to the community. In addition to staffing costs, construction and vehicle costs are experiencing significant increases.

The municipality’s single largest expense is education. For FY24 the cost is increasing slightly from FY23, though a stagnant base student allocation funded by the state has limited the maximum allowable level of local funding to \$7.7 million, which the CBS is meeting. Total funding, including funding for pool operations (\$122,000), student activities (\$132,000), performing arts center utilities (\$66,000), school building maintenance (\$150,000), Secure Rural Schools funding up to (\$360,000), and finally, distribution of the newly levied marijuana tax to fund student activities and travel (\$300,000). Total funding for the Sitka School District is \$8,827,498.

Total FY24 expense budget for the General Fund is \$42,600,148, which leaves a surplus of \$17,641.

Capital Improvement Program

By the end of FY22, the municipality began shifting into recovery from the pandemic, and was comfortable restricting \$5 million of the General Fund’s fund balance to spend on capital projects in FY24—a significant step towards making up for belt tightening measures during the pandemic. This funding plus additional General Fund working capital will fund the projects listed below:

Project #	Project Description	Source - Working Capital	Source - Other source	Total
90812	Emergency Unanticipated Repairs	400,000	-	400,000

90969	Water/Wastewater Replacement at Senior Center	34,000	-	34,000
		5,800,000	126,940	5,926,940

The capital projects listed above were funded based on the risk analysis that is being implemented as part of the CBS’s asset management program. It is important to note that in some cases funding will need to be added to projects over a number of years. For others, there is internal work to be done before any visible progress is made, so while funding may be in place, we will not see the final result for quite some time.

Finally, work is currently being conducted to determine the conditions of many assets across the municipality. As this work progresses, the budget and timing of projects will be refined, and some projects may shift in priority.

The CBS mid-long range Capital Improvement Program is included within this budget document.

Summary

As we look forward, the asset management program, combined with the strategic plan and improvements to the budgeting process, will support a wholistic view of the needs of the municipality that will better align limited resources with the highest community priorities. While our local economy is growing and revenue increasing, so are the needs of the community and the costs to meet those needs. Maintaining and upgrading our existing infrastructure continues to stretch our resources—both in terms of financial

and human resources. The looming need for significant repairs to our schools dwarfs other demands for limited resources.

This budget represents the first budget in the CBS's history in which a strategic plan has guided the investment of resources and sets forth a path that emphasizes some key actions that will bring us closer to achieving our mission to:

Provide public services for Sitka that support a livable community for all.

And to do so in a way that encompasses our values of:

People—Innovation—Integrity—Sustainable—Service

I appreciate the Assembly's involvement in both the strategic planning process and the budget tied to the plan. We understand that the success of this budget relies heavily on the trust and support of the citizens of Sitka. We welcome feedback and input from the community and encourage everyone to participate in the public meetings and discussions that take place throughout the budget approval process. Together we will continue to make improvements to services that meet the priorities identified by sound risk analysis, community input, and the strategic plan.

Respectfully submitted,

John M. Leach
Municipal Administrator

2. Rate per Month. This fee is in addition to the actual installation charges required for installing the desired fixtures.

Monthly unmetered street or security light energy rate is calculated as follows:

(0.482 kWh per lamp watt) times (the wattage of the lamp)=kWh per month.	
Example: 0.482 kWh x 100 watt lamp = 48 kWh per month.	
Monthly energy rate is: kWh per month times \$0. 20032199 per kWh.	
48 kWh per month x \$0. 20032199 /kWh = \$ 9.61 <u>\$10.56</u> per month energy rate.

1,000 watt	\$ 102.89 <u>105.99</u> per month

* * *

H. Controlled Service Interruptible Load—Large Consumer.

* * *

3. Rate per Month. Basic customer charge for each month or portion of a month: two hundred dollars.

* * *

The energy charge calculation will be performed by multiplying 0.0317 times the average price paid two

calendar months prior by the state of Alaska or the city and borough of Sitka, whichever is lower, for No. 2 fuel oil delivered in Sitka. This factor assumes an overall oil heating system efficiency of seventy percent and a heat equivalent of fuel oil of one hundred thirty-eight thousand five hundred ninety-nine BTU per gallon. The maximum energy charge for all kilowatt hours under this rate shall be twelve and ~~one~~ thirty-seven one-hundredths cents per kilowatt hour.

Example 1: If the city and borough's price for No. 2 fuel oil is one dollar and twenty cents per gallon, the rate would be 0.0317 times one dollar and twenty cents equals three and eighty hundredths cents per kilowatt hour.

Example 2: If the city and borough's price for No. 2 fuel oil is four dollars and twenty cents per gallon, the rate would be 0.0317 times four dollars and twenty cents equals thirteen and thirty-one hundredths cents per kilowatt hour. However, due to the maximum energy charge, the energy charge in this case would be twelve and ~~one~~ thirty-seven one-hundredths cents.

* * *

FY24 Consolidated Operating Budget**

**Summary of Significant Accounting
and Budget Policies**

Significant Accounting Policies

Accounting for the financial activities of the City and Borough of Sitka is performed in accordance with Governmental Accounting and Financial Reporting Standards, as promulgated by the Governmental Accounting Standards Board (GASB), and applicable Federal and State of Alaska guidelines.

Specific accounting policies having an impact on this budget include the following:

Depreciation - Depreciation is recorded on the straight line basis for all fixed assets and useful lives used to calculate depreciation expense conform, as much as possible, to industry standards.

Inventories - Inventories of maintenance supplies and materials are accounted for under the periodic method on a first in - first out (FIFO) basis. Inventories of maintenance supplies and materials re expensed when consumed.

Bad Debt Expense - Bad debt expense is accounted for under the direct write off method.

Investments in Debt Securities - All investments in debt securities are considered to be held until maturity and are carried at historical cost. Investments are marked to market on a monthly basis separate from the accounting system and market value is reported to management monthly. Premiums and discounts on the purchase of debt securities are amortized on the effective interest methods.

Compensated Employee Absences - Compensated employee absences (annual leave) is expensed as accrued.

Grants - Grants from Federal Government Agencies are accounted for as revenue to the appropriate fund (normally a Capital Project Fund).

Capital Project Funds - All capital construction projects in excess of \$50,000 are normally accounted for in separate Capital Project Funds. Due to increased control initiated in FY97 some projects less than \$50,000 will be accounted for in Capital Projects Funds. For proprietary funds, capital construction is accounted for in separate capital project funds for internal management purposes only; and the end of the fiscal year, all proprietary fund capital projects are closed back to the parent fund through adjusting journal entries. Uncompleted projects are shown as construction in progress and grant revenue for capital construction is accounted for as grant revenue.

Fixed Assets - For accounting purposes the minimum level for fixed assets is set at \$5,000 and for infrastructure is set at \$10,000.

Summary of Significant Accounting And Budgeting Policies (cont.)

Significant Budgeting Policies

Specific budgeting policies having an impact on this budget include the following:

Budgeting Basis - Budgeting is on a cash inflow / cash outlay basis. As the financial operations of proprietary funds are required to be accounted for under the accrual accounting basis, budgeting in these funds is for outlays (expenditures), not for expenses. So that the user may relate expenditure authority to its effect on the financial condition of such funds, pro forma financial statements showing the estimated financial effect of the authorized spending are also provided. Accrual accounting information is, where necessary, adjusted to a cash basis in order to provide management with consistent budget execution information.

Operating and Capital Budgets - Authorized expenditures for all funds are divided into separate and distinct capital and operating budgets. Capital budgets include authorized expenditures for acquisitions of fixed assets, minor construction projects, acquisitions of and improvements to land, and direct transfers of equity to capital project funds and other funds (in particular, internal service funds). All other authorized expenditures are contained within operating budgets.

Lapsing of Appropriations and Reappropriations of Capital Expenditures - All unencumbered operating budget appropriations lapse at the end of the fiscal year (June 30th). Capital expenditures do not lapse; however, for internal management purposes, capital appropriations are also assumed to lapse at the end of the fiscal year. Capital expenditures which carry forward to future years are reappropriated and are clearly shown as such in the budget. Amounts shown are estimates only. Actual remaining appropriations are reappropriated.

Revenues - For budgeting purposes, revenues for proprietary funds are assumed to be received in cash although, under accrual accounting rules, some revenues are recorded prior to the actual receipt of cash. These revenues include interest receivable, amortization's of discounts on investment securities, and utility fees billed but not yet received. The effect of these non-cash revenues is not considered to be significant enough to be material.

Internal Budget Redistributions - The Municipal Administrator has the authority to redistribute appropriations between accounts within specific Divisions of the General Fund, within Enterprise Funds and within Internal Service Funds. Authorized expenditures may not be redistributed between operating and capital budgets. Redistributions between certain Divisions of the General Fund, between different Funds or between operating and capital budgets of the same Fund, must be approved by the City and Borough of Sitka Assembly.

Internally Funded Capital Projects - Capital projects in excess of \$50,000 are normally accounted for in separate Capital Project Funds. Due to increased control initiated in FY97 some projects less than \$50,000 will be accounted for in Capital Project Funds. If such projects are funded through grants, donations, or revenue generated by the project, such revenues are accounted for directly under the Capital Project Fund. If a project is funded through the transfer of equity from the General Fund or a Proprietary Fund, the transfer is budgeted as *Interfund Transfers or Advances to Other Funds* under the General Fund or Proprietary Fund, and an *Advances From Other Funds* under the Capital Project Fund. For proprietary funds, capital construction is accounted for in separate capital project funds for internal management purposes only; and the end of the fiscal year, all proprietary fund capital projects are closed back to the parent fund through adjusting journal entries. Thus, if projected expenditures for Capital Project Funds lag behind expected levels, actual amounts of year-end working capital may exceed projected levels.

Fixed Assets - For budgeting purposes the minimum level for fixed assets is set at \$5,000 and for infrastructure is set at \$10,000.
