

# Comments on Trail Assets

| Topic Area                                    | Comment                                                                                                                                                    |
|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Bikes & E-Bikes                               | No commercial bikes should be allowed on trails                                                                                                            |
|                                               | No commercial e-bikes should be allowed on trails                                                                                                          |
|                                               | No commercial bikes/e-bikes on Indian River trail                                                                                                          |
|                                               | No unguided e-bike use on the Cross Trail                                                                                                                  |
| Thimbleberry                                  | Maximum groups per week limit at Thimbleberry is too low                                                                                                   |
|                                               | Maximum group size on Thimbleberry/Heart Lake should be 8                                                                                                  |
| General comments on limits/allowed use levels | No commercial activity should be allowed on trails                                                                                                         |
|                                               | Reduce number of groups per week by half                                                                                                                   |
|                                               | No commercial use of Herring Cove, Cross Trail, and Harbor Mountain                                                                                        |
|                                               | Keep group sizes small and groups per week limited                                                                                                         |
|                                               | Mirror USFS group limits on trails                                                                                                                         |
| Other                                         | Trail etiquette guidelines should be part of permitting process including having groups yield to others, bell use, prohibiting use of microphones/speakers |
|                                               | Do not allow commercial vehicles to park in small lots at trailheads                                                                                       |
|                                               | Weekday use should be condition rather than guideline                                                                                                      |

# Comments on Water Access Areas

| Topic Area                                    | Comment                                                                      |
|-----------------------------------------------|------------------------------------------------------------------------------|
| Motorized Watercraft                          | Green Lake should also be limited to non-motorized watercrafts               |
|                                               | No commercial motorized watercraft use should be allowed at Eagle Beach      |
|                                               | No unguided commercial jet ski use should be allowed                         |
| General comments on limits/allowed use levels | Increase maximum group sizes                                                 |
| Area Specific Comments                        | No commercial use of Eagle Beach without consultation/agreement by neighbors |
|                                               | No commercial use of Swan Lake                                               |

# Comments on Remote Areas

| Topic Area           | Comment                                                                                                                                                              |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Baranof Warm Springs | Current levels of use at Baranof Warm Springs unsustainable without more oversight and infrastructure/services                                                       |
|                      | Continue allowing commercial use at Baranof Warm Springs                                                                                                             |
|                      | Increase maximum group size at Baranof Warm Springs to 10 guests                                                                                                     |
|                      | Reduce maximum groups per week at Baranof Warm to 6                                                                                                                  |
| Goddard Hot Springs  | No commercial use of Goddard Hot Springs                                                                                                                             |
|                      | Commercial use should be allowed at Goddard Hot Springs                                                                                                              |
|                      | Water taxis to Goddard should be subject to group size limit (perhaps 6)                                                                                             |
|                      | Water taxis to Goddard should be subject to client fee                                                                                                               |
|                      | Water taxis to Goddard should be allowed to send a guide ashore for disembarking/embarking safety and to enforce common courtesies (waiting turns for tub use, etc.) |
|                      | Water taxis to Goddard should be limited to one per day (perhaps with use of scheduling system)                                                                      |
|                      | Small charter boat operators (max group size of 6) should be allowed to use Goddard                                                                                  |
|                      | Some kind of sticker/identification is needed on boats to identify permitted operators                                                                               |
| Islands & Other      | No commercial use of islands                                                                                                                                         |
|                      | Do not include guides in maximum group sizes                                                                                                                         |
|                      | Rental boats should be required to get a permit                                                                                                                      |

| Comment                                                                                                                          |
|----------------------------------------------------------------------------------------------------------------------------------|
| Limits cannot be enforced/monitored                                                                                              |
| Lack of clarity on how allocations will be distributed among operators                                                           |
| Fee increases are too high                                                                                                       |
| Delay implementation of fee increases to 2027                                                                                    |
| Revenues from fees should be used for maintenance/improvements of recreation assets                                              |
| Look into whether local operator preference can be used as a criteria for competitive application scenarios                      |
| Allow “fractional” allocations for group sizes to better accommodate operators with smaller group sizes (particularly on trails) |
